产品简介 Product introduction

硅胶绝缘防护罩应用与变压器、避雷器、户外开关等电力设备接线端头配用的绝缘安装防护产品。该产品等，能有效地防止原来裸露在外的电力设备端头，由于各种原因(人为碰触、窃电、小动物或杂物塔触、凝露闪络、污闪、盐雾、酸雨及化学腐蚀等)损坏电力设备的停电事故和触电人身亡事故，从而避免由此带来巨大经济损失，是国家电力公司推广用绝缘安装防护产品。

Silicone rubber insulated protective cover and application of transformer, arrester, outdoor switch electrical equipment wiring end is equipped with the insulation installation of protective products. The product, etc., can effectively prevent the original exposed outsidePower equipment end, due to various reasons (human touch, flash stealing, small animals or touch of debris tower, condensation flashover, sewage, salt fog, acid rain and chemical corrosion, etc.) damage to electrical equipment of blackoutAnd electric shock people died in the accident, so as to avoid the resulting huge economic losses, is the national electric power company to promote the use of insulation installed products.
